### BRIDAL FALL 2024 COLLECTION

#### **ELEGANT SIMPLICITY**

We continue to deliver trend setting styles for our brides all over the world.

It has been a thrilling and satisfying experience to keep fulfilling dreams.

This season we are introducing an exciting classical collection, inspired by the core of the brand DNA. It pays tribute to regal femininity and old-world elegance. The collection caters to the needs of today's bride, blending couture styling with intricate yet unassuming designs: our signature elegant simplicity.

The Reem Acra Fall collection offers a variety of accessories for the bride to celebrate her own unique style. The collection encompasses long A-line silhouettes, ball gowns, short dresses, trains, jackets, detachable hoodies, boleros, gloves, and belts to meet all the needs of the brides.

There are some real gems in this collection that are a modern re-interpretation of styles from the very first Reem Acra collection. "**Refined**" – the 3D handmade flowers are the same flowers that adorned the very first wedding dress ever made by the designer. "**Gem**" – a modern interpretation of the first dress featured in nationwide editorials.

Reem Acra – "Where the trend begins, and tradition continues."
